

UniFirst Announces Financial Results for the Third Quarter of Fiscal 2018

June 27, 2018

WILMINGON, Mass., June 27, 2018 (GLOBE NEWSWIRE) -- UniFirst Corporation (NYSE:UNF) today announced results for its third quarter which ended May 26, 2018. Revenues for the quarter were \$427.4 million, up 4.3% from \$409.8 million in the comparable prior year period.

Operating income for the quarter was \$47.1 million compared to \$38.8 million in the third quarter of fiscal 2017. The Company's operating income in the prior year period included \$5.4 million of stock compensation expense related to the accelerated vesting of restricted stock for its former Chief Executive Officer, Ronald Croatti. Excluding the effect of the accelerated vesting, operating income in the current quarter grew 6.6% when compared to the adjusted operating income in the prior year period of \$44.2 million. See the table below for a reconciliation to the adjusted results.

Net income in the quarter was \$36.4 million (\$1.85 per diluted share), compared to net income of \$24.4 million (\$1.19 per diluted share) in 2017. Excluding the effect of the accelerated vesting discussed above, the Company's adjusted net income would have been \$27.7 million (\$1.36 per diluted share) in the third quarter of fiscal 2017. See the table below for a reconciliation to the adjusted results.

The Company's provision for income taxes in the third quarter of 2018 benefited from \$1.9 million (\$0.10 per diluted share) of discrete adjustments primarily related to tax credits the Company recognized in the quarter as well as excess tax benefits from share-based payments associated with the adoption of Accounting Standards Update 2016-09 ("ASU 2016-09"), *Improvements to Employee Share-Based Payment Accounting*, in the first quarter of fiscal 2018.

Also in the third quarter of 2018, as contemplated in the Company's previously provided outlook, the Company's provision for income taxes was positively impacted by the U.S. Tax Cuts and Jobs Act enacted on December 22, 2017, which resulted in a benefit of \$5.2 million (\$0.27 per diluted share) in the quarter. In addition, the Company's diluted earnings per share benefited by \$0.06 from the previously announced \$146.0 million repurchase of common shares in March 2018.

Steven Sintros, UniFirst President and Chief Executive Officer, said, "We're pleased with the financial results for our third quarter, as well as for the first nine months of our fiscal year. Our solid operating performance and strong overall financial position allows us to continue making investments in our people, in our company's technologies, and in our service infrastructure; all aimed toward our ultimate objective to be universally recognized as the top service provider in our industry."

Core Laundry revenues in the quarter were \$379.1 million, up 3.3% from the third quarter of the prior year. Organic revenue growth, which excludes the estimated effect of acquisitions as well as fluctuations in the Canadian dollar, was 1.9%. The Core Laundry operating margin decreased to 10.5% in the quarter from the prior year operating margin, adjusted for the effect of the accelerated vesting of restricted stock discussed above, of 10.6%. This slight decrease was primarily the result of higher production and service and delivery payroll costs, depreciation expense as well as higher energy costs as a percentage of revenues. These comparisons were mostly offset by lower healthcare claims as well as favorable worker's compensation expense compared to prior year.

Revenues from our Specialty Garments segment, which consists of nuclear decontamination and cleanroom operations, were \$34.1 million in the quarter, an increase of 14.1% compared to the same period a year ago. Operating income was \$5.6 million compared to \$4.2 million in last year's third quarter. The year over year improvement was primarily due to increased outages and project-based activity at the segment's Canadian and European nuclear customers, as well as solid growth from the cleanroom division. This segment's results can vary significantly due to seasonality and the timing of reactor outages and projects.

UniFirst continues to maintain a strong balance sheet with no long-term debt and significant cash balances. At the end of the Company's third quarter of fiscal 2018, cash, cash equivalents and short-term investments totaled \$238.5 million, a decrease of \$111.3 million from the end of fiscal 2017 due primarily to the \$146.0 million share repurchase, discussed above, as well as \$38.5 million spent on the acquisition of businesses.

Outlook

The Company now expects that its fiscal 2018 revenues will be between \$1.680 billion and \$1.687 billion and full year diluted earnings per share ("EPS") will be between \$7.95 and \$8.05. The increase in the revenue and EPS outlook is partially due to the stronger than expected performance of our Specialty Garments business in the third quarter of fiscal 2018.

UniFirst Corporation and Subsidiaries Reconciliation of GAAP to Non-GAAP Financial Measures

Thirteen weeks ended

The Company reports its consolidated financial results in accordance with generally accepted accounting principles ("GAAP"). To supplement these consolidated financial results, management believes that certain non-GAAP operating results provide a more meaningful measure on which to compare the Company's results of operations for the periods presented. The Company believes these non-GAAP results provide useful supplemental information regarding the Company's performance to both management and investors by excluding certain non-recurring amounts that impact the comparability of the results. Supplemental reconciliations of consolidated operating income, net income and earnings per diluted share on a GAAP basis to adjusted operating income, net income and earnings per diluted share on a non-GAAP basis are presented in the following tables. In addition, Core Laundry Operations operating income and operating margin on a non-GAAP basis are presented in the following tables. Investors are encouraged to review the reconciliations of these non-GAAP measures to their most directly comparable GAAP financial measures, which are provided below.
